2.0 General Coverage Provisions

2.1 Covered IT Assets and Client Locations

For purposes of this Agreement, the covered IT Environments and IT Assets shall include all locations and IT assets as outlined in Section 1.0 Coverage Summary. The specific IT Asset and location details are recorded in the Service Provider's Remote Monitoring and Management (RMM) and/or Professional Services Automation (PSA) tools.

If the Client desires to relocate, add or remove locations, the Client shall give notice to the Service Provider of its intention to relocate sixty (60) days in advance. The Service Provider reserves the right to renegotiate service terms with respect to any relocation and/or addition of locations by the Client. Such right includes the right to refuse service to the IT environment at the relocation and/or new site.

Covered Locations do not include any on-site services unless explicitly indicated herein. Even covered on-site services at covered locations may incur an on-site fee as detailed in Section 1.0 Coverage Summary.

It is expected that changes will be made to the configuration of the IT environment over time. Events causing such changes may include hiring of new personnel, addition of IT assets, and physical movement of components. Adjustments to the IT Assets covered by this agreement will require an addendum to this Agreement and may adjust the monthly cost of service. At the Service Provider's discretion new IT Assets can be added to coverage and the cost of services will adjust the client's monthly charges, initially being prorated on the first invoice received post addition.

Any additional IT Assets added to the IT environment without the consent or acknowledgement of the Service Provider will not be honored or supported by the Service Provider under this agreement. The Service Provider reserves the right to renegotiate service terms with respect to any addition of IT Assets by the Client.

It is expected that the use of auxiliary devices with covered IT assets may be necessary for Client. No support or service is included for any undocumented auxiliary devices unless detailed in Section 1.0 Coverage Summary and/or Appendix 3 of this Agreement. Any and all auxiliary devices that require coverage must meet the Service Provider's serviceability standards, be supported and warranted by the manufacturer/vendor, and be in reasonable condition. Any coverage of auxiliary devices may adjust the monthly cost of service. It is at the sole discretion of the Service Provider to cover these devices at an agreed upon monthly rate.

2.2 Conditions for Service

The CLIENT IT Environment is eligible for service, monitoring, and support under this Agreement provided it is in good condition and the Service Provider's serviceability requirements/standards as defined and site environmental conditions as defined herein are met.

The Service Provider reserves the right to inspect the IT Environment upon the commencement of the term of this agreement for the purpose of assessing and documenting the state of the IT Environment. Unless stated otherwise, said assessment shall be included as part of the Onboarding process outlined in Section 4.2 Onboarding Process.

The Service Provider reserves the right to suspend or terminate this Agreement if in its sole discretion, conditions at the service site pose a health or safety threat to any Service Provider representative.

Coverage for existing IT Assets under this Agreement is contingent upon:

1. The IT Assets meet the Service Provider's serviceability standards defined in Appendix 3
2. For remote service, a covered IT Asset must have the Service Provider's RMM agent installed and be remotely accessible over a reliable internet connection.
3. The IT Asset's physical condition, physical configuration, and/or digital configuration are supported by the manufacturer or vendor.
4. The IT Asset's physical condition, physical configuration, and/or digital configuration remains economically reasonable for service.
5. For onsite service, the covered IT Assets are at a covered and serviceable location listed in Section 1.0 Coverage Summary.

2.2 Included Services

The services covered by this agreement and provided by the Service Provider are defined in Appendix 3 and outlined in Section 1.0 Coverage Summary. All services not defined within Appendix 3 and outlined in Section 1.0 Coverage Summary will be considered uncovered and are subject to the out of scope/uncovered terms, fees, and conditions defined within this Agreement.

2.4 Included Service Hours and Days

Unless otherwise stated herein, all services covered by this Agreement shall be provided during regular business hours, excluding holidays, unless otherwise specified in Section 1.0 Coverage Summary or Appendix 3.

Out of hours services and support can be provided at the Service Provider's discretion to cover early/late shifts, nights, weekends, public holidays, and otherwise out of scope service hours and days. These services are contingent upon the Service Provider's availability of its representatives, according to the terms and conditions set

forth in this Agreement. All out of scope hours services are considered out of scope and are subject to the fees and terms of this Agreement and within Section 1.0 Coverage Summary.

2.5 Included On-site Services

The Service Provider strives to provide remote service because it is less invasive to the end user, has faster turnaround, and helps the Service Provider control its costs. The Service Provider will offer on-site service when:

- Physical movement or configuration of IT Assets is necessary
- Remote accessibility is limited
- Service Provider's representative expects that an on-site repair to be faster.

The specific on-site coverages, rates, and any on-site 'dispatch' fees provided under this Agreement are defined in Section 1.0 Coverage Summary.

The Service Provider reserves the right to refuse requests for an on-site resource when the incident can be addressed remotely with reasonable effort and involvement from the Service Provider and/or Client.

It is at the sole discretion of the Service Provider to determine if an on-site 'dispatch' of a Service Provider's representative is necessary to resolve a monitor alert, service or support request.

In the event the Client would like a representative from the Service Provider to come on-site and the Service Provider believes that the incident can be addressed remotely, on-site out of scope rates and dispatch fees as defined in Section 1.0 Coverage Summary will apply.

On-site 'dispatch' fees are designed to help the Service Provider manage its representatives travel costs. They are determined by distance, time, tolls, parking fees, and other environmental factors and the specifics for each Client site are defined in Section 1.0 Coverage Summary. This fee is applicable each time a representative from the Service Provider visits the client site to address a monitor alert, service or support request unless otherwise agreed by the Service Provider.

The Client has the right to refuse any and all on-site services, even those the Service Provider determines are required to address a Client support/service request or monitor alert. In the event the Client refuses on-site services that are determined to be necessary by the Service provider, the client agrees that all required service levels and coverages that apply to that request under this agreement will no longer apply.

Included services may have pre-requisites, conditions, serviceability standards, and other requirements that must be met before the service can be completely effective. The costs associated with any/all of these requirements, conditions, pre-requisites, and serviceability standards will not be covered by this Agreement unless otherwise noted herein. For the specific coverages please see the detailed coverage details in the Appendix 3 Groups Section.

- In the event that the Client incurs multiple individual charges that do not exceed 10% of the Client's covered base monthly charges but collectively exceed 25% of the Client's base monthly service charges, Client approval becomes required for any/all additional uncovered expenses for the remainder of that service period (month).

2.9 Included Service Levels

The Service Provider strives to provide the service levels defined within this Agreement. General Service levels are defined in in Section 1.0 Coverage Summary and Service Levels specific to the individual services the Service Provider is offering under this Agreement are defined within Appendix 3.

Priorities that determine the response and resolution time's targets are defined using the following characteristics:

- Business and financial exposure (Cost)
- Percentage of end-users at Client affected (Impact)
- How debilitating the incident is for end-user and the Client (Severity)
- Is there a workaround available?

The Service Provider recognizes that some requests, even those with minimal impact or severity could be urgent for the Client or end-user. The Service Provider will provide best effort to accommodate these incidents but cannot guarantee an adjustment to the agreed upon service levels defined within this Agreement. All urgency driven prioritization of requests are at the sole discretion of the Service Provider.

The response and resolution times defined within this Agreement behave like timers (e.g. like a stop-watch) and are tracked and managed within the Service Provider's ticketing system. The following conditions and behaviors apply to the service level response/resolution time timers:

- The response and resolution time timers begin to track time when the ticket is created within the Service Provider's ticketing system.

- Emails are not guaranteed to open tickets immediately, but they will typically be opened within 10 minutes of emailing.
- Opening tickets with the tray icon is the preferred and immediate method of submitting requests.

The Service Provider will continue to follow up with and escalate requests with vendors, manufacturers, and/or the Client to ensure resolution of the request.
- Any and all service level timers for requests that are reliant on a 3rd party and are not within the control of the Service Provider to resolve will remain paused until the responsible party shifts back to the Service Provider.
- The timers will be paused outside the covered hours defined in Section 1.0 Coverage Summary.
